New in Cubasis 3.7

What's New in Cubasis 3.7

Capture your ideas and turn them into exceptional sounding tracks with Cubasis, our award-winning mobile DAW app for iOS, Android and Chrome OS. Create in 3/4, 7/8, 15/16 or whatever time signature matches your inspiration. Go even further and easily add multiple tempo and time signature changes or ramps in just a few steps. Celebrate Yamaha's Synth 50th Anniversary with 384 additional legendary DX7 patches in the free FM Classics IAP update. Or, as the owner of the brand new Iconica Sketch for iOS app, create inspiring orchestral masterpieces on the go with the free additional Cubasis plug-in version. Go create, wherever you are – with Cubasis for iOS, Android and Chrome OS.

New in Cubasis 3.7

Tempo and signature track support.

Take your music creation with Cubasis to the next level, now featuring tempo and signature track support. Easily adjust tempo and time signatures on the fly to match your creative vision. Effortlessly create tracks with unique time signatures, explore new rhythmic patterns, and craft dynamic music that keeps listeners hooked. Unleash your creativity and make every beat count with tempo and signature track support.
